Hauke Sandhaus

HCI RESEARCHER
& UX TECHNOLOGIST

Cornell Tech · 2 West Loop Road · New York, NY 10044
sandhaus@duck.com · https://hauke.haus

Designing for user and worker autonomy, imagining AI systems that not just respect but support human autonomy. Dissertation work develops theory that distinguishes legitimate machine influence from manipulation.

CURRENTLY

Cornell Tech / Ph.D. Candidate in Information Science
STARTED AUGUST 2021 · EXPECTED GRADUATION JULY 2027 · NYC, NY, USA
Advised by Helen Nissenbaum (Chair), Wendy Ju (Co-Chair), and Qian Yang (Committee Member).
Planned postdoctoral research: "Everyone Is a Manipulator Now", testing the personalized manipulativeness of adversarial commercial AI.

PROFESSIONAL EXPERIENCE

Cornell Tech / Graduate Research Assistant — Obfuscation Repository
SEPTEMBER 2026 – PRESENT
With Helen Nissenbaum. Building obfuscation.tech.cornell.edu, an open repository of obfuscation strategies that teaches lay users to protect their data under pervasive surveillance and AI scraping, starting from the premise that the communication channel cannot be trusted.

Center for Responsible AI at NYU / Research Assistant
MARCH 2023 – DECEMBER 2023
Worked on the 'University of Notre Dame - IBM' Technology Ethics Lab Grant Auditing AI Initiative on the project 'Expanding AI Audits to Include Instruments: Accountability, Measurements, and Data in Motion Capture Technology.'
- Collaborated with researchers from University of Michigan, Intel Labs, and New York University on an award-winning CHI publication
- Investigated bias in measurement standards for AI hardware
- Contributed to frameworks for auditing AI technologies

Cornell Tech / Graduate Research Assistant — Designer Decision-Making
JANUARY 2023 – MAY 2023
With Qian Yang. One-semester grant on external pressures shaping designer decision-making, with a mental-health-technology focus.

Cornell Tech / Graduate Research Assistant — Human–AV Interaction
JANUARY 2022 – AUGUST 2023
With Qian Yang. On-road studies of human–autonomous vehicle interaction and analysis of safety-critical data-sharing practices among AV companies. Fed into CSCW '25 and AutoUI/IEEE ITSC '24 publications.

Volkswagen Group Future Center / UX Technologist
OCTOBER 2018 – AUGUST 2021
Led the design of inclusive user experiences for fully autonomous vehicles and developed next-generation driver interfaces. Involved in the creation and transformation of CARIAD.
- Improved User Experience Questionnaire (UEQ) benchmarks by 30% over state-of-the-art through inclusive design approaches
- Developed and implemented a next-generation digital cockpit that improved accessibility of steering wheel functions without affecting driving performance
- Created high-fidelity AI prototypes using cutting-edge research papers and custom computer vision pipelines that were adopted for production development
- Conducted on-road studies for ambient in-cabin lighting systems that identified critical safety, comfort, and motion sickness factors for AV passengers
- Designed and prototyped LLM-based digital assistant interfaces for in-vehicle use, now in final stages before market release
- Established GDPR-compliant research practices that were adopted across the VW Group
- Successfully transferred multiple vision projects to strategy teams, with implementations adopted by Porsche, Skoda, and Audi

Robert Bosch / Intern & External Master Theses
AUGUST 2017 – JANUARY 2018
Designed V2X interfaces and researched interfaces for autonomous vehicles tailored for older adults and disabled users.
- Conducted research on autonomous vehicle interfaces for older adults and people with disabilities
- Designed Vehicle-to-Everything (V2X) interfaces for future mobility solutions

ELIXIER / Student Researcher
AUGUST 2016 – APRIL 2017
Conducted usability testing of multimodal and augmented workbenches for educational purposes and developed an AR manual for chemistry experiments.

100%FAT / External Bachelor Theses
JANUARY 2015 – MAY 2015
Designed, developed, and evaluated a prototype for a touchless interactive showcase in the DesignLab Twente. The prototype was permanently installed in the Design Hall.

Twente Academy / Student Teacher
MARCH 2014 – SEPTEMBER 2014
Taught upper secondary school pupils programming using the Arduino microprocessor.

EDUCATION

Cornell University, Ann S. Bowers College of Computing and Information Science / M.Sc.
2021 – 2024
Information Science
Passed Qualification Exam on October 2nd, 2024
- A Exam Title: 'Navigating Ethical Design Under External Pressures'
- Dissertation Topic: 'Empowering technology designers to create ethical technologies and resist external pressures.'

Bauhaus Universität Weimar / M.Sc.
2015 – 2018
Human-Computer Interaction
Graduated with honors (GPA 3.9)
- Master Thesis: 'An Ambient Display for Fully Autonomous Vehicles'
- Best Thesis of the Year
- Publication: 'A WOZ Study of Feedforward Information on an Ambient Display in Autonomous Cars' in The 31st Annual ACM Symposium on User Interface Software and Technology

Universiteit Twente / B.Sc.
2011 – 2015
Creative Technology
Cum Laude (Thesis GPA 4.0)
- Bachelor Thesis: 'Development of a 3D Navigable Interface for a Touchless Showcase'
- Represented graduation year and gave graduation speech
- Prototype permanently installed in the Design Hall

Czech Technical University / Semester Abroad
2013 – 2014
Electrical Engineering and Telecommunications

Gymnasium im Schloss / Abitur
2003 – 2011
Science Branch (STEM)
- Graduated with majors in Art & Religion
- Participated in and won science competitions

SERVICE & TEACHING

Course Development, Deep Learning (CS 5787) — Cornell Tech
AUGUST 2026 · NEW YORK CITY
Prepared class material with Hadar Averbuch-Elor: revised assignments and homework for student use of generative AI tools, and built a pipeline that generates final-exam questions resistant to AI-assisted answers.

Hybrid Chair — CHIWORK 2026
FALL 2025 – SUMMER 2026 · LINZ, AUSTRIA
Chairing hybrid participation and infrastructure for the 5th Annual Symposium on Human-Computer Interaction for Work.

Instructor, Ethical Vibe Coding — Cornell Tech
SUMMER 2026 · NEW YORK CITY
Three-week course on ethical AI-assisted coding for high school students at Cornell Tech's Summer Innovation Intensives. With Jonathan Segal and Wendy Ju.

Co-Instructor, Conscientious Tech Design Workshop — Cornell Tech
SUMMER 2025, SUMMER 2026 · NEW YORK CITY
Co-designed and co-facilitated an 8-week ethics workshop for Siegel PiTech PhD Impact Fellows using the Values at Play framework; operationalized the framework into collaborative whiteboard activities and assignments (pitechethics.github.io). With Helen Nissenbaum.

Teaching Assistant in UX & User Research — Cornell Tech
SPRING 2026 · NEW YORK CITY
Assisted in teaching a master's level course focused on the UX lifecycle and user research methods. With Shiri Azenkot.

Co-host NYC Privacy Day — Cornell Tech
FALL 2025 · NEW YORK CITY
Managed the website, sign-ups, and the poster and demo track for NYC Privacy Day, an initiative between privacy research institutes in the NYC area.

Teaching Assistant in Interactive Device Design — Cornell Tech
FALL 2023, FALL 2025 · NEW YORK CITY

Head TA in master level prototyping class. Maintained project code repository, labs, and oversaw grading. Updated the class for AI-codesign of technology; in Fall 2025 built WendyTA, an LLM-based teaching assistant for student projects. With Wendy Ju.

Teaching Assistant in Privacy in the Digital Age — Cornell Tech
FALL 2024 · NEW YORK CITY
Head TA in master level privacy class. Led assignments, in-class privacy policy exercise and a lecture on usable privacy. With Helen Nissenbaum and Vitaly Shmatikov.

ISGSA Liaison — Cornell University
FALL 2022 – FALL 2023 · NEW YORK CITY
Information Science Graduate Student Association Liaison for NYC to Ithaca campus collaboration.

Teaching Assistant in HCI Design — Cornell University
FALL 2021 · ITHACA
Assisted in teaching undergraduate and master level course in human computer interaction. Oversaw grading and individual sections. With Gilly Leshed.

Member — We Drive Proud
2019 – 2021 · POTSDAM, GERMANY
Member of the VW network to advocate being out at work.

Reviewer — Peer Review
2018 – ONGOING
Peer reviewer at FAccT, CHI, DIS, AutoUI, CSCW, MuC, and CHIwork.

FELLOWSHIPS & AWARDS

Public Interest Responsible Technology Fund
JUNE 2026 · CORNELL TECH
Teaching grant to instruct a PhD-fellow cohort on value-centered design methods.

DLI Doctoral Fellow
2023-2024 · CORNELL TECH
The Digital Life Initiative supports examining the complexities and tensions present in digital technologies involving ethics, policy, politics, and quality of life.

Siegel Public Interest Technology Impact Fellowship
MARCH 2021 · CORNELL TECH
Funded to work for not-for-profit organization YAI. YAI is one of the largest organizations in the U.S. providing children and adults with intellectual and developmental disabilities (I/DD) a comprehensive range of services.

Thesis of the Year
JULY 2015 · UNIVERSITEIT TWENTE
Selected by jury to speak at graduation ceremony. Bachelor thesis presented on behalf of the creative technology program.

SKILLS

Coding: Python, Java, JavaScript, React.js, Node.js, Android, Unity3D, C#, Arduino, Open Frameworks
AI: fastai, Pinecone, Teachable Machines, TensorFlow, ml5.js, OpenCV, Scikit-learn, DepthAI, LLM integration, Custom computer vision pipelines
Data Analytics: Python data visualization, Tableau, R, Matlab, d3.js
Design: Interface design, Lottie, AE, 3D modeling, PSD, Framer
User Research: Contextual & expert interviews, Ethnography, Surveys, Usability testing, On-road studies
UX: Personas, Wireframes, Focus groups, Human factors, Inclusive design, Accessibility
Hardware: CAD, Rapid Prototyping, 3D manufacturing
Management: Team leadership, Conflict resolution, Strategy, Scaled agile methods (certified), UX strategy
